

Utopia Neo Ointment

Composition :

For each 1gm ointment contains :

Active ingredients:

- Bacitracine
500 unit.
- Neomycine
3.5mg.
- Polymixin B
10000 IU.
- Pramoxine
10mg.

Inactive ingredients:

- Microcrystalline wax
- Heavy liquid parafin
- Cholesterol
- Methyl parapen
- Butyl parapen
- White soft parafin

Properties:

-**The triple effect of the combination** of bacitracin , neomycine and polymixin give maximum strength skin antibiotic. The spectrum of action covers most bacterial pathogens capable of causing external infections of the skin .

-This combination is active against most of gram positive and gram negative bacteria.

Pramoxine is a local anaesthetic that gives an analgesic effect and pain relief.

Mechanism of Action:

- **Neomycin** like other aminoglycoside antibiotics interferes with bacterial protein synthesis.

- **Polymixin B** acts primarily by binding to and changing the permeability of the bacterial cytoplasmic membrane .

- **Bacitracin** interferes with bacterial cell wall synthesis.

- **Pramoxine** is an external analgesic.

Indications:

First aid to help prevent infections and for temporary relief of pain or discomfort in minor: cuts · scrapes and burns.

Dosage:

Adults and children 2 years of age and older:

- Clean the affected area.
